

bulm M

référence LAM200-M

fichiers 3D sur demande (3DS, MAX, skp)

Actuel et hors du temps, Bulm est un luminaire-sculpture qui encapsule la lumière pour la restituer, diffuse et accompagnée de jeux d'ombres. Vivant par sa lumière, sa silhouette poétise l'espace.

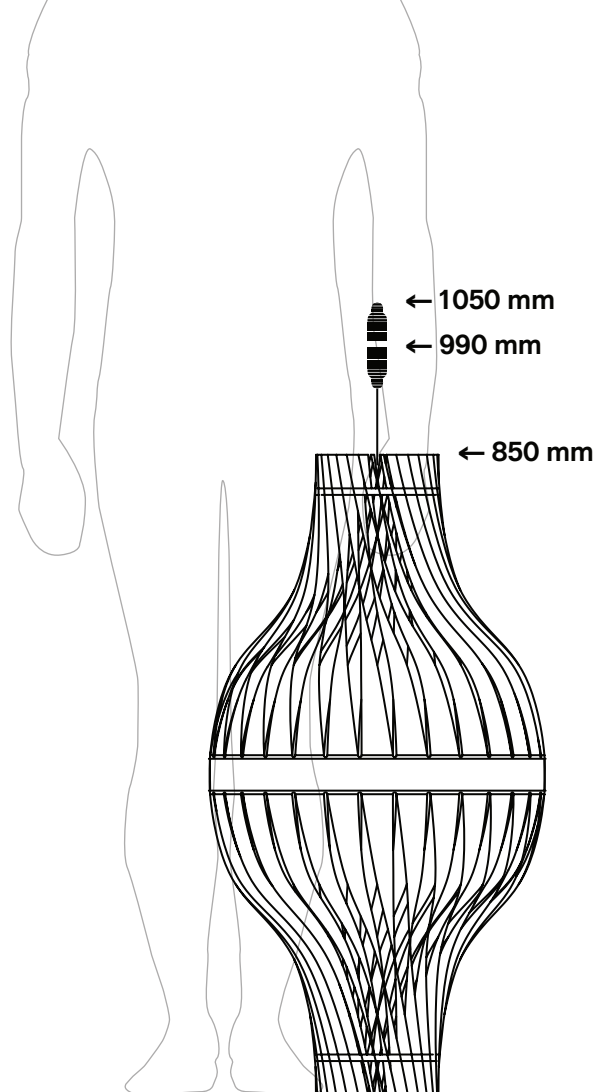

• caractéristiques techniques

tension	50 Hz / 230 V
classe	II
