

lairial

NOTICE WIRE MODULE: TABLE / FLOOR LAMP (ref LAA100-US)

Read carefully before use and keep IMPORTANT

- . Only Lairial components must be used
- . Before use: Smooth the cable gently between the fingers to remove any folds & if the end of the lamp jewel (spring) is pushed in, gently stretch it to reshape it.
- . If the cable is damaged, it must be replaced exclusively by Lairial.

CONNECTING /DISCONNECTING

CAUTION: Before connecting, switch off

A-CONNECT

- 1-** Prepare the modules (lighting and wire)

- 2-** Insert the male connector into the female connector until you hear a "click".

- 3-** Move the two springs together

- 4-** Insert the wire module holder into the spring of BulM (Blistering at the tip)

- 5-** Hold the BulM spring with your hand and turn the other part of the spring clockwise. Pull lightly to check for

B-DISCONNECT

- 1-** Hold the BulM spring with your hand and unscrew the spring from the connector module counterclockwise. **IMPORTANT:** do not disengage the springs by pulling
2- Disconnect by pulling lightly

IMPORTANT: the spring has only aesthetic function. Do not pull on the turns, it will distort it and harm the aesthetics of the object

USE WITH LIGHTING MODULES (Volupte S / M and BulM S / M)

Volupte S / M

You can use them in both directions :

- On the flared part (intimate lighting)
- On the disc for "spotlight" lighting.

BulM S / M

You can use them in both directions :

- Horizontally (luminous presence)
- Vertically like a floor lamp, bulb up

OUR ADVICE: Before using Volupte (both directions), and BulM vertically, gently loosen the cable between the fingers at the exit of the metal cap and then pass it between two strips.

Please note that Volupte XL and BulM XL cannot be used as table or floor lamps

CLEANING

- 1-** Switch off. If necessary, disconnect the modules.
2- Aspirate the dust with the small brush of the vacuum cleaner
